Booking Kiosk and Mobile Booker

Booking Kiosk

Cordic's Booking Kiosks enables you to increase job bookings and revenue potential. The industry's first self-service Taxi Booking Kiosk allows passengers to book and even pay for jobs entirely on their own without involving any of your valuable staff. Cordic's Booking Kiosks act as an extension of your in-office booking system.

- Works alongside your in-office cPAQ booking system with no disruption to ongoing booking activity
- Only requires a mains power supply and the rest is securely contained in the kiosk
- The extra screen can potentially increase your revenue if used as advertising space

With Cordic's Booking Kiosk, you can set up self-service booking stands in busy passenger areas such as stations, airports, supermarkets, shopping centres, business parks, night clubs, university campuses and exhibition centres.

- Customers can book jobs quickly and easily using clear, simple touch-screen instructions
- Full UK address search is provided as well as a configurable list of local points of interest; e.g. hotels, business parks, tourist attractions, etc.
- Passengers enter their name, the destination and their choice of vehicle type
- The passenger pays for the job by cash or secure card payment at the kiosk and gets a printed receipt and a confirmation ticket
- When a taxi arrives, the passenger presents their confirmation ticket to the first available taxi

Booking Kiosk

The Best
Despatch System

Mobile Booker

Cordic's unique portable Mobile Booker puts your booking office in the palm of your hand and lets you book jobs while out of the office, on location or from anywhere your passengers are located.

The portable Mobile Booker acts as an extension of your in-office booking system. Ideal for use at busy passenger areas such as stations, airports, sporting events, exhibition centres and nightclubs.

- Works alongside your in-office booking system with no disruption to ongoing booking activity
- Allows you to set up a temporary office where your customers are located
- Complies with regulatory requirements set out by the Public Carriage Office in London and other local authorities

Cordic's Mobile Booker system ensures efficient and hassle-free operation where a high volume of passengers need to be serviced quickly.

- Book jobs as quickly and easily as if in the office
- Enter passenger name, destination and choice of vehicle type
- Option to enter a quotation for fixed-priced jobs
- The terminal prints a numbered ticket for each passenger
- Numbered passenger tickets ensure a first-come, first-served service
- Jobs booked using the terminal result in a taxi being summoned to the Mobile Booker's location
- Taxis can arrive at the Mobile Bookers location in any order
- The passenger at the front of the queue gets into the first taxi that arrives and presents the printed confirmation ticket to the driver
- The driver enters the ticket number into his in-car PDA which then downloads the passengers journey details
