- ✓ **Set up customised Credit Card surcharges**
- ✓ **Fully integrated within the Cordic system, for minimum cost**

Combined Printer and Card Reader

Credit Cards

Show full details on the Pocket PC in the Taxi - including price and surcharge.

Collect passenger's signature on the touch screen of the Pocket PC.

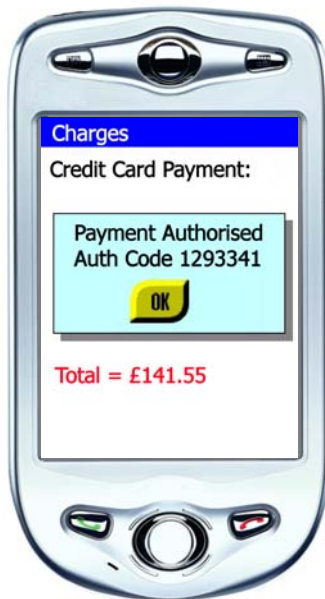

The signature is saved at the control centre.

Optionally, use a portable bluetooth Printer and Card Reader in the Taxi.

Swipe the credit card in the vehicle.

Collect the passenger's signature on a printed voucher.

Print a receipt for the passenger to keep.

Payments are authorised directly on-line, via the GPRS radio link.

Authorisation is immediate, whilst the passenger is still in the vehicle. The money is then credited to your bank account.

Driver will see the payment on his statement (together with his normal account work).

You have a full audit trail of all transactions.
