# Mobile Booker

**Your staff can book jobs from any location with our unique, portable Mobile Booker. Take your office to wherever your customers are !**

- ✓ **Use it at nightclubs, stations, airports, exhibition centres - in fact, anywhere you like**
- ✓ **Based on Pocket PC, with GPRS radio data link to your control centre**
- ✓ **Can enter passenger name, destination and choice of vehicle type**
- ✓ **Can enter quotation for fixed-price job**
- ✓ **Prints a numbered ticket for each passenger**
- ✓ **Guarantees passengers treated 'first come, first served' - to avoid arguments**
- ✓ **Complies with typical Private Hire licensing regulations**

# Mobile Booker

Clear, simple screens let your staff enter Job details quickly and easily.

Options include selecting special requirements - such as vehicle type - and entering a price quotation.

The Job is then booked directly into the system, without involving your control centre staff.

The system will despatch a taxi, in the normal way, to pick up at the location of the Mobile Booker.

As the Job is booked, a unique numbered ticket is printed.

The passenger takes the ticket, and waits until all previous passengers have been picked up.

Then he gets into the next available taxi and gives the ticket to the driver.
