

DVLA Checker

The Cordic DVLA checker makes checking and entering vehicle details quicker and much more efficient. Type in the vehicle registration number and the system will automatically fill in all the necessary fields with information taken directly from the DVLA database. Making things speedy and massively reducing human error while entering details.

The smart filter will also generate handy abbreviations making information clear and easy to read. You also retain the ability to manually change the description field so you can control what appears in customer text messages.

Benefits

Save time

Efficient

Reduce errors

Peace of mind

datasheet | DVLA Checker

When a driver's MOT or road tax is due for renewal, the system will automatically pop up a reminder to the operator. If a driver informs the office that they've already renewed tax or MOT, operators can also double check this through the system - giving you real peace of mind.

Entering a new driver has never been easier!

Just type in the registration number and the DVLA checker will auto-populate the make, model, colour, CO2 details as well as the MOT and road tax expiry dates!

Auto check vehicle details

Information direct from DVLA database

Reminder for MOT due date

Reminder for road tax renewal

The DVLA checker is a safety net to minimise any errors through manually entering details, making sure all vital vehicle information is present and correct and making you legal and compliant!
